INNOVATION WITH DIGITAL TWIN

JUNATICA JAPAN LLC

OUR HISTORY

In 2017, Office Junatica opened doors as a personal business site. Started IT consulting for nursing care homes and health maintenance gyms. 2023, founded Junatica Japan LLC based on experience in PLM/SCM and SaaS implementation projects. Currently promoting DX with Digital Twin solutions.

OUR VISION

It is difficult to break out of Japanese industries current situation only by implementation of conventional IT tools, and we need to strategically promote DX. We will be a partner for clients to realize the ideal human-IT collaborative environment, and Japanese industries regain their vitality.

OUR MISSION

We suggest Digital Twin solutions as the key to DX success in manufacturing and related industries. However, Digital Twin has not yet been established in terms of how to implement it, how to carry the project, and how to utilize it. We analyze your needs, select the most appropriate scope of application, and guide you to get the most out of it.

ABOUT US

Junatica Japan LLC is an IT consulting company, and we collaborate with 51WORLD (Digital Twin solution vendor), and ARROW WORKS (mechanical engineering company) to support clients as a reliable partner.

WHY CHOOSE US?

51WORLD is a leading Digital Twin solution vendor and has implemented more than 1,800 systems for smart cities, smart infrastructure, and so on, in 130 cities in 8 countries around the world. Junatica Japan LLC supports the implementation of this extraordinary solution with our experienced project management abilities.

Digital Twin

Digital Twin is the parallel environment for real/virtual collaborative process, and a key to DX success.

PLM/SCM/CRM

PLM/SCM/CRM is the ecosystem for generating and delivering all objects to consumers.

PM/PMO

PM/PMO is the important function to control the projects and lead it to the success.
